RAPE PROOF: How to Defeat a Rapist and Survive a Violent Attack

By Coach David Alexander (Self Defense Expert) Coach Z Training.com

By taking a Life Saving/Confidence Boosting Private Lesson, you will end up with more **PRACTICAL** and **REAL WORLD** Self Defense/Self Protection knowledge than most Martial Arts Black Belts have learned in their entire lives! It's virtually always better to fight back, particularly if you are trained in how to fight back properly. Women who fight back are injured less often, are more successful in stopping the attack, regardless of what kind of attack it is, and feel better about themselves afterwards.

So, what are some things you might learn at a Private Lesson?

- How to Defeat a Rapist ("Rape Proof").
- Situational Awareness.
- The Top 10 Fighting Myths Exposed!
- Learn and practice the 10 Most Devastating, Hand-Picked, Lethal and Non-Lethal Self Defense Techniques which are the Fastest and Easiest to Learn and Apply.
- Philosophy of my B.E.T. "Target Based" Self Defense System and why it is the best system in the world to survive a violent encounter.
- Practice targeting and getting "reactions" to open new targets.
- Chokes & Strangles plus how to avoid getting choked or strangled.
- How to escape the "school yard bully" front and rear headlock.
- Takedowns for the street while you stay on your feet.
- Leave high-flying spin kicks to Hollywood; I will show you the two kicks that actually matter in a real fight.

- Ground survival for the street (not sport!).
 - How to get back to your feet, quickly, if you find yourself on the ground.
 - Practice what to do when your attacker has a knife, gun stick or bat.
 - Learn and practice surviving against multiple attackers.
 - How to escape the "Worst Position Possible".
